

IDEAS

COMBINE AND REFINE

* Have 2 of these concatenations, one for lower-ranking countries, and the other for higher-ranking countries

FILTER

(1)

* Remove 2, 3 and 3

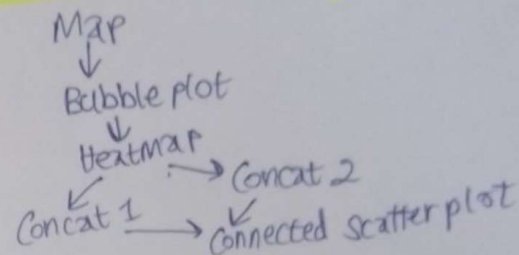

* Concatenate 7 and 6 vertically to get

(9) concat idiom

* Use 1, 4, 5, 8 as they are

CATEGORISE

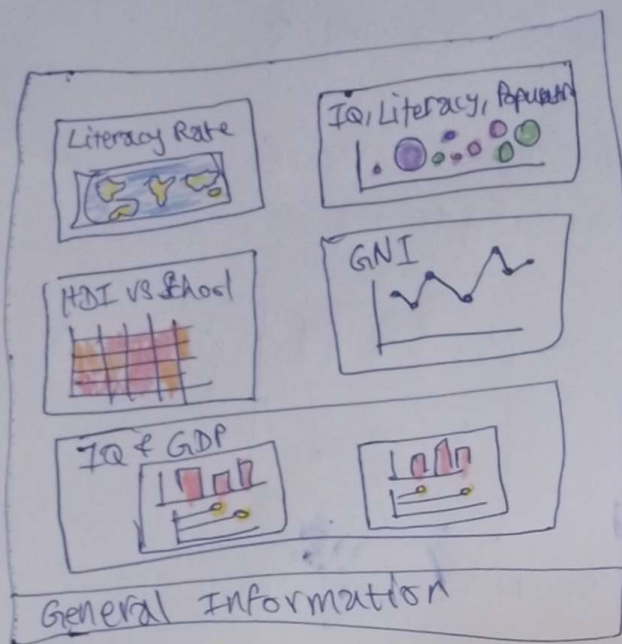

QUESTION

* Are all relevant data represented here?

* Are all the idioms here suitable?

* Is this the expected type of visualisation

LAYOUT

Title: Dashboard View

Author: Senuthi Seneviratne

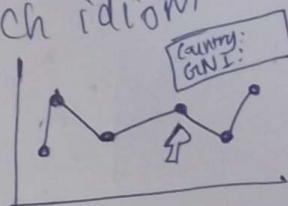

Date: 21/10/2025

Sheet: 2

Task: ~~View~~ Design implementation

OPERATIONS

Tooltips appear when you ~~hover~~ hover over each idiom

FOCUS

Map idiom: ~~It~~ Shows literacy rate for each country

Bubble: Shows population, IQ and Literacy for each bubble

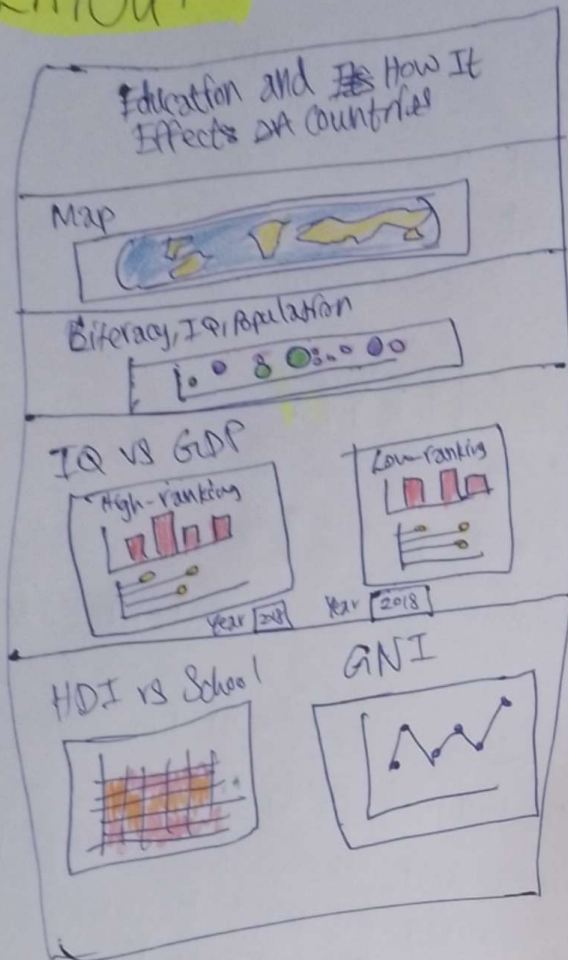

DISCUSSION

* Placement of elements/Idioms may not have the best flow

* Does this format catch the reader's eye?

* Is it too cluttered?

LAYOUT

Focus

- * Main focus is on the interactivity of the lollipop charts

Title: Simple Narrative Visualisation

Author: Senuthi Seneviratne

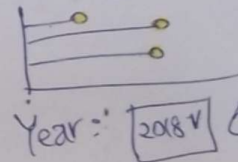

Date: 21/10/2025

Sheet: 3

Task: Visualisation of the topic for host (alternative)

OPERATIONS

Interactivity

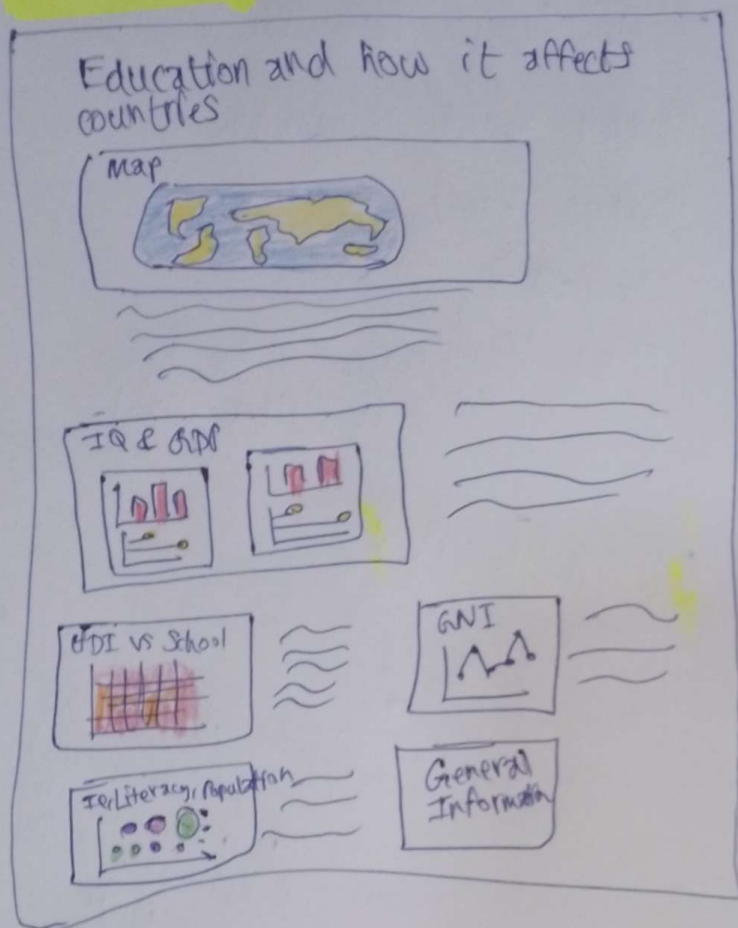

This (in the lollipop charts) is a drop-down where you can select an year for which you want GDP lollipop

DISCUSSION

- * All idoms can't be viewed in one go, you need to scroll
- * Lets each section be seen in detail without worrying about each section having being clustered

LAYOUT

Focus

- * Give small introductions for each of the idioms
- * Improving interactivity

Title: Partitioned Poster

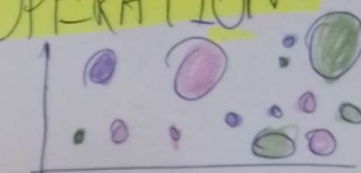

Author: Senuthi Seneviratne

Date: 21/10/2025

Sheet: 4

Task: Design alternative implementation

OPERATIONS

Interactivity

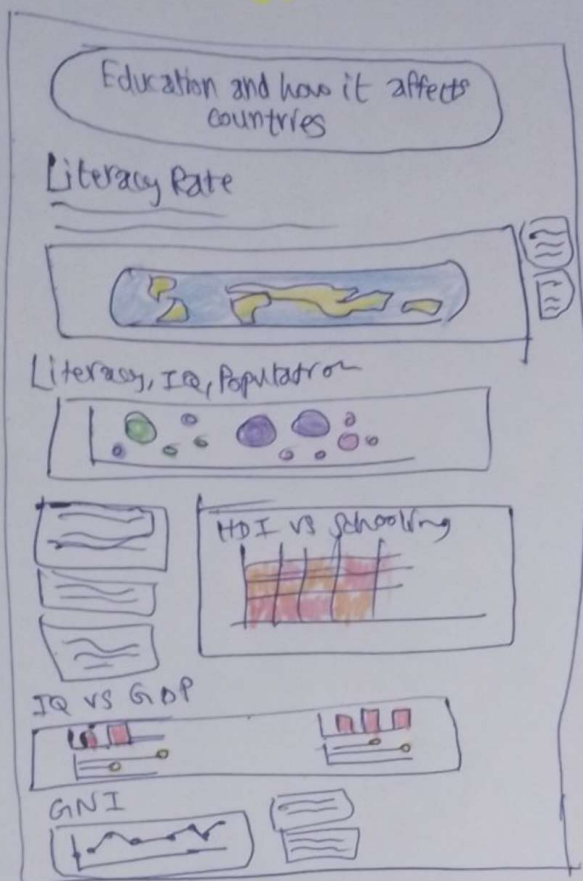

This is a dropdown in the bubble plot, which lets you choose the category of values you want to see (all, Asia, Europe, etc)

DISCUSSION

- * Might be an issue if there is too much of text
- * Does having too much text make the reader bored (if there is too much)
- * Is the levels of interactivity give relevant?

LAYOUT

5

Title: Final Design Sheet

Author: Senuthi Seneviratne

Date: ~~27/10/2025~~ 21/10/2025

Sheet: 5

Task: Final Design Implementation

OPERATION

- * There are 2 instances of interactivity: 1) one at the bubble plot, and the other for the 2) lollipop charts

FOCUS

- * Ensure there is a proper balance between the amounts of colours, and the amount of words used

- * Ensure it has a suitable structure that is eye-catching

DETAIL

- * Categories sections clearly
- * Data is presented in a suitable format
- * Improved balance between visualisations and text.
